This screenshot displays a web-based management interface for Beijing University. The browser tabs at the top indicate the user is logged into the university's information portal. The main interface features a search bar and several menu items. A central form is used for data entry, with the title '中国北方灌丛调查'. On the right-hand side, there are buttons for saving and printing, along with a section for '拟定学位论文'. At the bottom, a table lists user roles, and a dropdown menu is visible with options for '组长' (Chairman), '成员' (Member), and '秘书' (Secretary).

This screenshot shows the same web interface as the first image, but the bottom portion is completely redacted with a solid black box. A prominent blue arrow is overlaid on the image, pointing downwards from the top edge of the redacted area, indicating the location of the redacted content.
